

PHONICS

Phonics is the knowledge of letters and the sounds they make. At Ranvilles Infants School, Phonics is taught through the Letters and Sounds programme.

The children are taught the skills of blending sounds together to read words and segmenting the sounds in a word and choosing the correct letters needed to spell it.

The children work on the Letters and Sounds Programme from phases 1-6 and are set across their Year groups, according to the phase of Letters and Sounds they are working on.

They receive 15-20 minutes focussed phonics teaching each day.
